| The energy efficiency class of the model determined in accordance with Annex IV. Expressed as 'Energy efficiency class... on a scale of A (more efficient) to G (less efficient)'. Where this information is provided in a table this may be expressed by other means providing it is clear that the scale is from A (more efficient) to G (less efficient).                                                                                    | A                                                      |                |
| Where the information is provided in a table, and where some of the appliances listed in the table have been granted a 'Community Eco-label' pursuant to Regulation (EEC) No 880/92, this information may be included here. In this case the row heading shall state 'Community Eco-label', and the entry shall consist of a copy of the Eco-label mark. This provision is without prejudice to any requirements under the EU Eco-label scheme. | No                                                     |                |
| Energy consumption for washing, spinning, and drying, in kWh per complete operating cycle as defined in Annex I note V.                                                                                                                                                                                                                                                                                                                         | 5.44                                                   | kWh / cycle    |
| Energy consumption for washing and spinning only, in kWh per washing cycle as defined in Annex I note VI.                                                                                                                                                                                                                                                                                                                                       | 1.52                                                   | kWh / cycle    |
| Washing performance class determined in accordance with Annex IV. Expressed as 'Washing performance class ... on a scale of A (higher) to G (lower)'. This may be expressed by other means provided it is clear that the scale is from A (higher) to G (lower).                                                                                                                                                                                 | A                                                      |                |
| Water extraction efficiency for a standard 60°C cotton washing cycle, determined in accordance with the test procedures of the harmonised standards referred to in Article 1 (2). Expressed as 'Water remaining after spin ... % (as proportion of dry weight of the wash)'.                                                                                                                                                                    | 44                                                     | %              |

| Water consumption for washing and spinning only, in litres, per standard 60°C cotton washing (and spinning) cycle determined in accordance with the test procedures of the harmonized standards referred to in Article 1 (2).                                                                                                                                                                                                                   | 65                                                     | litres / cycle |
| Washing and drying time. Programme time for complete operating cycle (60°C cotton washing and 'dry cotton' drying). For rated washing capacity, determined in accordance with the test procedures of the harmonised standards referred to in Article 1 (2).                                                                                                                                                                                     | 735                                                    | min.           |
| The consumption of energy and water equal to 200 times the consumption expressed in points 5 (energy) and 12 (water). This shall be expressed as 'estimated annual consumption for a four-person household, always using the drier (200 cycles)'.                                                                                                                                                                                               | 1088                                                   | kWh / year     |
