

PART NUMBER 740/0067

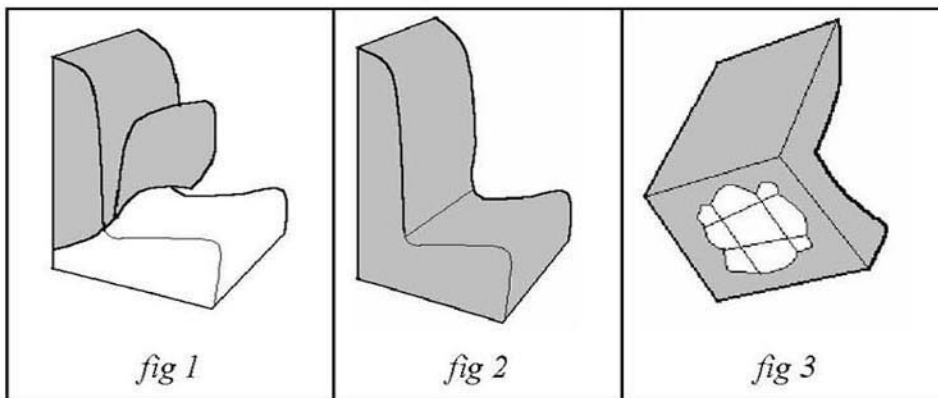

“Windsor 2” Front Car Seat Covers

INTRODUCTION

Thank you for purchasing the “Windsor 2” Car Seat Covers. This set adds a touch of luxury to your car’s interior, and may be used to protect the seats from normal wear, so that the original fabric is in good condition when the vehicle is sold.

Front Seat Covers - FITTING INSTRUCTIONS

1. Remove any headrests if fitted.
2. Pull the top part of the seat cover (i.e. the longer part with the elasticated slit for the headrest) over the upright part of the seat. The patterned side should be facing the front of the seat (*fig 1*).
3. Pull the cushion cover over the horizontal part of the seat, and smooth the surfaces to ensure that the cover material is correctly positioned (*fig 2*).
4. Attach the elasticated hooks under the outside edge of the seat cover to the springs underneath the car seat using the fastening hooks included with your covers (*fig 3*).
5. Replace the headrests taking care not to rip the seat cover material. Place the headrest cover (patterned surface to front) over the headrest.

100% Polyester, **DO NOT** Iron, Bleach, Dry Clean or Tumble Dry. Warm 30° Hand Wash only.

WARNING

- **DO NOT FIT** these seat covers if your seat is fitted with side air bags. If the bags are fitted in the **DOOR** and not the **SEAT** itself, then this is OK.
- **Remove periodically and check condition of your car and the car seat.**
