Safety information

Safety information

Important - Please read these instructions fully before installing or operating

Power source

- Only use the power supply that came with the product. Using an unauthorised power supply will invalidate your guarantee and may irrecoverably damage the product.
- Disconnect your FM Alarm Clock Radio from the mains power supply during thunderstorms.
- Always check that you have completely switched off your FM Alarm Clock Radio before you change or disconnect the power supply.
- Where the mains power plug or an appliance coupler is used as the disconnect device, the disconnect device shall remain readily operable.
- Only use recommended batteries or those of the same or equivalent type.
- Batteries are to be inserted with the correct polarity.
- The supply terminals are not to be short-circuited.
- Never throw batteries in a fire or attempt to open the outer casing.
- Batteries are harmful if swallowed, so keep away from young children.
- CAUTION: Danger of explosion if batteries are incorrectly replaced. Replace only with the same or equivalent type.

Moisture and water

- Do not leave it in low temperatures as moisture can form inside the product, which may damage the circuit board.

Heat sources and flames

- Do not leave it in high temperatures as electronic devices and plastic parts may warp in heat.

Safety information

Important - Please read these instructions fully before installing or operating

Ventilation

- Do not block or cover slots, holes or openings on the product by placing on soft furnishings such as carpets, rugs or beds as these are provided for functionality and/or ventilation to ensure safe operation of the product.
- The underneath and sides of this product may become warm after a long period of use. This is normal.

Positioning the FM Alarm Clock Radio

It is important that you consider carefully in advance where your FM Alarm Clock Radio will be situated and make sure that it is:

- on a flat and stable surface.
- within 1.4 metres of a power socket. Please ensure that the mains power lead is not a trip hazard.
- at least 1 metre away from other electrical appliances to avoid interference.
- where there is enough height for the telescopic radio aerial.
- Never place your FM Alarm Clock Radio directly onto antique or polished surfaces.

Caution

To avoid possible hearing damage, do not listen to this FM Alarm Clock Radio at high volume levels for long periods of time. Always keep the volume within reasonable limits.

General safety information

- Keep the product and all its parts out of reach of small children.
- This product is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning the use of the appliance by a person responsible for their safety.

Safety information

Important - Please read these instructions fully before installing or operating

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE ANY COVER. NO USER-SERVICEABLE PARTS INSIDE, REFER ANY SERVICING TO QUALIFIED SERVICE PERSONNEL.

Help is always at hand

Troubleshooting

If you are experiencing problems with your FM Alarm Clock Radio, there are some quick and easy checks that you can do, which may help to solve the problem.

No sound / power:

Adjust the volume using the volume control button.

Check that the mains power wall socket is switched on and that the FM Alarm Clock Radio is not in Standby mode. Press and release the Power button.

Replace the batteries by full power batteries.

Check that you are trying to use the function buttons for the mode that you are in.

Radio reception is poor:

Fully extend the telescopic aerial to get the best reception and sound quality.

Retune the radio station/s, see pages 10.

Try moving your FM Alarm Clock Radio to another location to see if reception improves.

Check that you do not have other electrical equipment too close to your FM Alarm Clock Radio causing interference.
