Safety and Care Advice

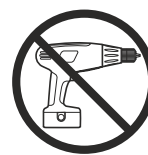

Important – Please read these instructions fully before starting assembly

Make sure you have enough space to layout the parts before starting.

Do not stand or put weight on the product, this could cause damage.

Do not place furniture directly in front of radiators, fires or any other source of heat.

Assemble on a soft level surface to avoid damaging the unit or your floor.

We do not recommend the use of power drill/drivers for inserting screws, as this could damage the unit. Only use hand screwdrivers.

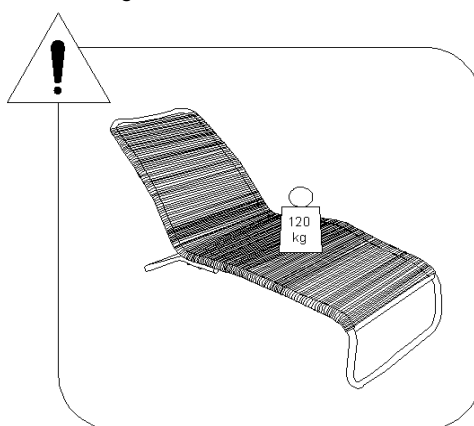

Dispose of all packaging carefully and responsibly.

General care and maintenance

Take care when moving furniture - dragging it across the floor will loosen and damage the joints. Always lift and move.

This furniture can be kept outside all year around, however we advise covering it or moving it to a sheltered area during prolonged wet weather and the winter months. If covering please ensure the furniture is completely dry first, and that the cover allows airflow. Do not leave standing in water.

Important: Recommended maximum load for this lounge chair is 120KG.

Take care to prevent sharp objects e.g. toys, buckles and heels from coming into contact with your furniture, and avoid contact with chemicals e.g. cosmetics or hairs products which may permanently mark the surface.

Cleaning and care

Dust regularly with a clean dry cloth.

The use of furniture polish or spray is not necessary or recommended.

Remove stubborn stains with weak washing up solution and a damp cloth and then wipe dry with a clean dry duster.

Wipe up any spills immediately with a damp cloth and then dry the surface with a clean dry duster.

If paintwork finish on frame becomes chipped or damaged, please treat exposed area with rust inhibitor immediately and then touch up with a colour matching paint that is suitable for use on metalwork.

Never use abrasive cleaners as they will scratch the finish.

Do NOT clean with the following or products containing the following: Acetone (e.g. nail varnish remover), Ammonia (e.g. bleach) or Sodium hydroxide (e.g. Caustic soda, drain and oven cleaners). In the event of accidental contact rinse thoroughly with water.
