Safety information

Important – Please read these instructions fully before using

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE ANY COVER. NO USER-SERVICEABLE PARTS INSIDE, REFER ANY SERVICING TO QUALIFIED SERVICE PERSONNEL.

- Please read this owner's guide
- Please take the time to follow the instructions in this owner's guide carefully. It will help you set up and operate your system properly and enjoy all of its advanced features.
- Please save this owner's guide for future reference.
- The product label is located on the back of the product.
- Heed all warnings - on the product and in the owner's guide.
- Do not use this apparatus near water or moisture.
- Do not use this product near a bathtub, washbowl, kitchen sink, and laundry tub, in a wet basement, near a swimming pool, or anywhere else that water or moisture is present.
- Only use attachments/accessories specified by the manufacturer.
- Unplug this apparatus during lightning storms or when unused for long periods of time - to prevent damage to this product.
- Refer all servicing to qualified service personnel
- Servicing is required when the apparatus has been damaged in any way: such as liquid has been spilled or objects have fallen into the apparatus; the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped -
- Do not attempt to service this product yourself.
- Opening or removing covers may expose you to dangerous voltages or other hazards.
- To prevent risk of fire or electric shock, avoid overloading wall outlets, extension cords, or integral convenience receptacles.
- Use suitable power sources - Plug the product into a suitable power source, as described in the operating instructions or as marked on the product. Before making any electrical connections, ensure the following:
 - Do not bend, stretch or pull the supply cable in order to avoid electric shock.
 - The supply voltage should be the same as that indicated in the technical specifications and the appliance rating plate.

This product complies with European low voltage (2006/95/EC) and electromagnetic compatibility (2004/108/EC) directives.

Care & maintenance

Care and cleaning

- **All care and cleaning operations should be carried out with the unit unplugged from the mains power.**
- **Occasionally wipe the cabinet with a lint free duster. Never clean the unit with liquids or solvents.**

Disposal information

WEEE marking "Information for the consumer"

Disposal of your old product Your product is designed and manufactured with high quality materials and components, which can be recycled and reused. When this crossed out wheeled bin symbol is attached to a product it means the product is covered by the European Directive 2002/96/EC. Please make yourself aware of the local collection system for electrical and electronic products. Please act according to your local rules and do not dispose of your old products with your normal household waste. The correct disposal of your old product will help prevent potential negative consequences for the environment and human health.

Rechargeable battery disposal

Your product contains a built-in rechargeable battery covered by the European Directive 2006/66/EC. To safeguard the functionality and safety of your product, always take your product to an official collection point or service centre where a professional can remove the battery.

Please inform yourself about the local rules on separate collection of batteries because the correct disposal will help prevent negative consequences for the environmental and human health. Please do not dispose of your batteries with your normal household waste. Always bring your product to a professional to remove the battery.

This product complies with Electromagnetic compatibility (2004/108/EC) directives.

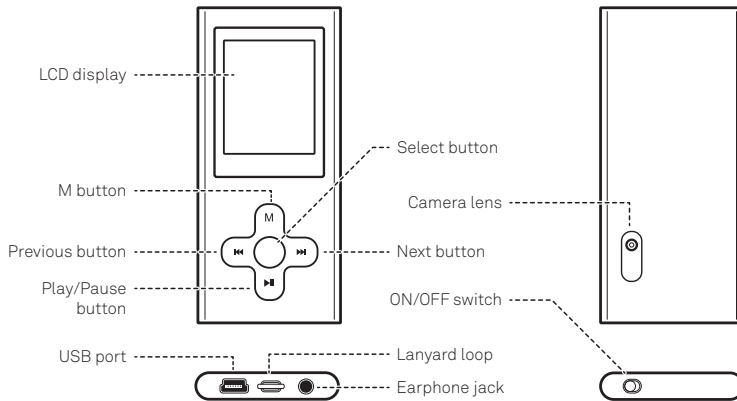

Functions & controls

Please familiarize yourself with the parts and accessories listed below

Accessories included

- 1 x CMP41D
- 1 x Instruction manual
- 1 x USB charging cable
- 1 x earphones

Overview of controls

Getting started

Before use your player will require charging fully. Follow the below instructions to charge.

- 1: Set the **ON/** Off switch to the '**ON**' position.
- 2: Using the usb charging cable connect the mini usb plug into the usb charge socket on the bottom of the unit. Connect the other end of the cable to a laptop/ pc usb input & power on the pc/laptop.
- 3: Once connected the player will power up and present you with three options:- Power & Data (**Charge the device & connect to a pc/ laptop**), Charge (**Charge only**) & Charge & Play (**Use the device while charging**). Select the '**Charge**' option using the **◀◀/ ▶▶** buttons and select by pressing the '**M**' button.
- 4: During charging you will see the charge animation in the top right corner of the display.

04:45

When the charge is at maximum the dots no longer animate.

Connecting to a PC

Once the unit is charged or during charging you can copy files to the player.

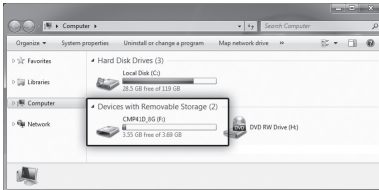

- 1: Follow steps 1-2 of **'Getting started'** to connect the player to a pc/ laptop.
- 2: Once connected the player will power up and present you with three options:- Power & Data (**Charge the device & connect to a pc/ laptop**), Charge (**Charge only**) & Charge & Play (**Use the device while charging**). Select the **'Power & Data'** option using the ◀◀ / ▶▶ buttons and select by pressing the 'M' button.

- 3: When the unit is connected a hardware driver is automatically installed and the device is then available in the list of devices (**Named CMP41_BG**). On some operating systems an auto play window will appear. Choose to take no action and click **OK** to close the window.
- 4: Double click **'My Computer'** Or **'Computer'** on some operating systems. Look for **'Removable disks or storage'** option and locate the device named **'CMP41_BG'** and double click.

NOTE: Do not disconnect the USB cable at any time when copying data to or from the device.

User instructions

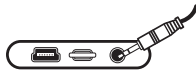

Connecting to a PC (cont)

- 5: Drag & drop media files into the applicable folders on the removable device.
- 6: Close the removable device window and disconnect the player from your pc/ laptop after data transfer has completed.

Earphone connection

Instructions for earphone usage.

- 1: Connect the 3.5mm earphone plug into the **EARPHONE** socket on the bottom of the unit.

To prevent possible hearing damage, do not listen at high volume levels for long periods.

In music mode, when the volume is adjusted to 85dB the above icon will appear on the display. Press the 'M' button to continue.

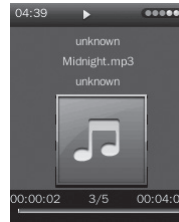

If you hear no sound during playback, do not turn the volume up as the music may suddenly begin at a high volume.

Excessive sound pressure from earphones and headphones can cause hearing loss.

To avoid damaging your ears, adjust the volume to the lowest safe level before playing, and turn up to the desired level when playback has started.

Music playback

- 1: Select '**MUSIC**' from the main menu.
- 2: Select a track from the '**Dir List**' or use one of the filters to help you locate the album/ track you wish to play. Press the '**SELECT**' button to begin playback.

- 3: To skip through the available tracks on the device use the **◀▶** buttons.
- 4: Press the '**Play/ Pause**' button to begin playback of a selected track. To pause playback press the '**Play/ Pause**' button once more.
- 5: Press and hold either **◀▶** buttons to fast forward or rewind the current track during playback.
- 6: To adjust the volume levels press the '**SELECT**' button and then use the **◀▶** buttons to increase or decrease the level.

Audio function menu

- 1: During playback press and hold the '**M**' button to enter the audio function menu.

EQ modes

You can apply various sound EQ's to audio following the below steps.

- 1: Select '**Select EQ**' and press the '**SELECT**' button to enter the **EQ** menu.
- 2: Select one of the following options:- Normal, Pop, Classic, Soft, Jazz, Rock, dbb (**dynamic bass boost**) & User eq (see '**Audio function menu**' **User EQ**).
- 3: Press the '**SELECT**' button to save the setting and return back to the audio function menu.

User instructions

Play mode

Select a playback mode from the below options.

Sequence	Play tracks in sequence
Repeat One	Repeat a single track
Repeat All	Repeat all tracks
Shuffle	Play tracks in a random order

Add to my playlist

Select this option to add the selected track to a playlist.

- 1: Select **'Add to my Playlist'** and press the **'SELECT'** button to enter the Playlist menu.
- 2: Choose which playlist **1-5** you wish to add the track to.
- 3: Press the **'M'** button repeatedly to return back to the music playback screen.

Set rating

Choose a track rating between 1-5.

- 1: Select **'Set Rating'** and press the **'SELECT'** button to enter the rating menu.
- 2: Use the **◀▶** buttons to select a rating from **1-5** and then press the **'SELECT'** button to store the setting.

Add a tag

Similar to playlist you can tag multiple tracks to appear in the 'tag list' on the music filter menu.

- 1: Select **'Add Tag'** and press the **'SELECT'** button to tag the current track.
- 2: From the Music filter menu (**EG:-Select 'MUSIC' from the main menu**) select **'Tag List'** to display all tagged tracks.

A-B repeat

- 1: Select **'AB Repeat'** and press the **'SELECT'** button to begin the **AB** repeat setup process.
- 2: Press the **'Play/Pause'** button to set the **'A'** marker (**beginning of the repeat section**). Press the **'Play/Pause'** button once more to set the **'B'** marker (**end of the repeat section**).
- 3: The selected audio will now repeat for the specified amount of times (**see point 4**).

A-B repeat (cont)

- 4: To specify the amount of repeat times select **'Advanced'** from the audio function menu and select **'Replay Times'**. Press the **'SELECT'** button.
- 5: Use the **◀▶** buttons to set the number of times the replay is to repeat. Press the **'SELECT'** button to activate.
- 6: From the advanced audio function menu you can choose **'Replay Interval'** to specify the length of time in-between each **'repeat'**. Use the **◀▶** buttons to set the interval time. Press the **'SELECT'** button to activate.

Delete a track

- 1: Select **'Delete'** and press the **'SELECT'** button.
- 2: Press **'Yes'** when asked **'Delete disk file?'**

Advanced audio menu

- 1: Select **'Advanced'** from the audio function menu and press the **'SELECT'** button.

Scan speed

Specify the speed at which the fast forward/ fast rewind scan functions operate.

- 1: Select **'Scan Speed'** and press the **'SELECT'** button.
- 2: Use the **◀▶** buttons to increase or decrease the scan speed from: **- 2X, 4X, 8X, 16X & 32X**.
- 3: Press the **'SELECT'** button to store the setting.

User EQ

This function allows you to create your own EQ setting. Selectable in 'EQ modes'.

- 1: Select **'EQ Settings'** and press the **'SELECT'** button.
- 2: Press the **'SELECT'** button once more to enter the **'User EQ'** programme screen.
- 3: Use the **◀▶** buttons to increase or decrease the gain slider for each frequency range.
- 4: Use the **'Play/Pause'** button to switch frequency range sliders.
- 5: Press the **'SELECT'** button to store the **EQ** setting.
- 6: Follow steps **1-3** of **'EQ modes'** page **5** to enable the new **EQ** setting.

User instructions

Information

When selected this function displays the information tags for the current track.

- 1: Select '**Information**' and press the '**SELECT**' button.

Video playback

- 1: Select '**VIDEO**' from the main menu.
- 2: Select a video from the '**Dir List**' or use one of the filters to help you locate the video file you wish to play. Press the '**SELECT**' button to begin playback.
- 3: To skip through the available videos on the device use the **◀▶** buttons.
- 4: Press the '**Play/Pause**' button to begin playback of a selected track. To pause playback press the '**Play/Pause**' button once more.
- 5: Press and hold either **◀▶** buttons to fast forward or rewind the current track during playback.
- 6: To adjust the volume levels press the '**SELECT**' button and then use the **◀▶** buttons to increase or decrease the level.

Video function menu

- 1: During playback press and hold the '**M**' button to enter the video function menu.

Playback mode

Select a playback mode from the below options.

Sequence	Play tracks in sequence
Repeat One	Repeat a single track
Repeat All	Repeat all tracks
Shuffle	Play tracks in a random order

Scan speed

Specify the speed at which the fast forward/ fast rewind scan functions operate.

- 1: Select '**Scan Speed**' and press the '**SELECT**' button.
- 2: Use the **◀▶** buttons to increase or decrease the scan speed from:- **1X, 2X, 3X, & 4X**.
- 3: Press the '**SELECT**' button to store the setting.

Add a tag

Similar to a playlist you can tag multiple videos to appear in the 'tag list' on the video filter menu.

- 1: Select '**Add Tag**' and press the '**SELECT**' button to tag the current track.
- 2: From the Video filter menu (**EG:-Select 'VIDEO' from the main menu**) select '**Tag List**' to display all tagged tracks.

Screen size

- 1: Select '**Screen Size**' and press the '**SELECT**' button to display the options.
- 2: Choose from '**Full Screen**', '**Original Size**' & '**Scale**'.

Video resume

Allows video's to be resumed from the last play position.

- 1: Select '**Resume**' and press the '**SELECT**' button.
- 2: Use the **◀▶** buttons to select **YES** or **NO** when asked. Press the '**SELECT**' button to store the setting.

Delete a video

- 1: Select '**Delete**' and press the '**SELECT**' button.
- 2: Press '**Yes**' when asked '**Confirm to delete**'.

Information

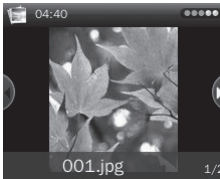

When selected this function displays the information tags for the current video.

- 1: Select '**Information**' and press the '**SELECT**' button.

User instructions

Photo browser

- 1: Select **'PHOTO'** from the main menu.
- 2: Choose a photo from the **'Dir List'** you wish to view and press the **'SELECT'** button to view.

- 3: Press and hold the **'M'** button to display information about the current image.

Photo function menu

- 1: When viewing a single image (**Not during a slide show**) press the **'Play/Pause'** button to display the **'Photo function menu'**.

Rotate

- 1: Select **'Rotate'** and press the **'SELECT'** button to display the rotate options of **90, 180 & 270**.
- 2: Use the **◀▶** buttons to select one of the options and press the **'SELECT'** button to activate.

Zoom

- 1: Select **'Zoom'** and press the **'SELECT'** button to display the zoom options.
- 2: Use the **◀▶** buttons to select one of the options and press the **'SELECT'** button to activate.

Slide interval/ Slide effect

Please see 'Slide show' section for details.

Delete

- 1: Select **'Delete'** and press the **'SELECT'** button.
- 2: Press **'Yes'** when asked **'Confirm to delete'**.

Information

This function displays information for the current photo.

- 1: Select **'Information'** and press the **'SELECT'** button.

Thumbnail/ List view

- 1: To view the **'Dir List'** in a thumbnail format select **'Scan Mode'** from the main **PHOTO** menu.
- 2: Select **'List Mode'** or **'Thumbnail'** and press the **'SELECT'** button to store the setting.

Slide show

Should you wish to view all images in a slide show follow the below steps.

- 1: Select a photo from the **'Dir List'** you wish to view and press the **'SELECT'** button.
- 2: When the image has loaded press the **'SELECT'** button again to begin a slide show of the available images (**in the selected folder**). Pressing the **'SELECT'** button once more stops the slide show on the current image.
- 3: To change the slide show transition effect, select **'Slide Effect'** from the main **'PHOTO'** menu.
- 4: Choose from the available transitions and press the **'SELECT'** button to store the setting.
- 5: To adjust the slide show interval between each image, select **'Slide Interval'** from the main **'PHOTO'** menu.
- 6: Set the amount of seconds between each image and press the **'SELECT'** Button to store the setting.

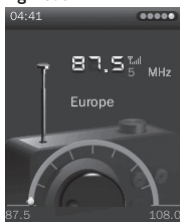

NOTE: The slide effect and interval settings are also available from the 'Photo function menu'.

User instructions

FM radio

When using the FM radio it is essential you have earphones connected as they act as an antenna.

- 1: Select **'FM RADIO'** from the main menu. The default mode is **'tuning mode'**.

- 2: Use the **◀▶** buttons to advance up or down the frequency range in **0.05MHz** increments.
- 3: To switch to **'channel selection mode'** press the **'Play/Pause'** button.

Auto scan

You can perform an auto scan and store all strong signals as preset channels.

- 1: Ensure you are in **'tuning mode'**. Press and hold the **'M'** button to display the **'Radio function menu'**.
- 2: Select **'Auto Search'** and press the **'SELECT'** button. The frequency band will be scanned and all strong stations will be stored in to presets.

Storing/ removing preset stations

- 1: Ensure you are in **'tuning mode'**. When you have tuned a station press and hold the **'M'** button.
- 2: Select **'Save Channel'**.
- 3: Select a channel from **1-20** and press the **'SELECT'** button to store the current station to that channel.

Recalling preset stations

- 1: Ensure you are in **'channel selection mode'**. Use the **◀▶** buttons to cycle through the stored stations.
- 2: Alternatively you can press and hold the **'M'** button and select **'Channel List'**
- 3: Select a channel and press the **'SELECT'** button to activate.

Delete a preset station

- 1: Ensure you are in **'channel selection mode'**. Select the channel you wish to delete.
- 2: Press and hold the **'M'** button and select **'Delete channel'**.

FM record function

- 1: When you have tuned a station press and hold the **'M'** button.
- 2: Select **'FM Record'**. The **FM** record mode is activated and automatically begins recording the current station.

- 3: Press the **'SELECT'** button to pause the recording. Press once more to resume recording.
- 4: When the recording is finished press the **'M'** button to save the file. If you are asked to stop the recording, select Yes.

Record quality

- 1: Press and hold the **'M'** button and select **'Record Quality'**.
- 2: Set the record quality from Low, Medium & High. Press the **'SELECT'** button to store the setting.

Record gain

- 1: Press and hold the **'M'** button and select **'Record Gain'**.
- 2: Set the record gain level from **1-5**. Press the **'SELECT'** button to store the setting.

FM Sensitivity

- 1: Press and hold the **'M'** button and select **'FM Sensitivity'**.
- 2: Set the sensitivity level from Low, Medium & High. Press the **'SELECT'** button to store the setting.

PRODUCT GUARANTEE

This product is guaranteed against manufacturing defects for a period of

Year

This product is guaranteed for twelve months from the date of original purchase.

Any defect that arises due to faulty materials or workmanship will either be replaced, refunded or repaired free of charge where possible during this period by the dealer from whom you purchased the unit.

The guarantee is subject to the following provisions:

- The guarantee does not cover accidental damage, misuse, cabinet parts, knobs or consumable items.
- The product must be correctly installed and operated in accordance with the instructions contained in this manual.
- It must be used solely for domestic purpose.
- The guarantee will be rendered invalid if the product is re-sold or has been damaged by inexpert repair.
- Specifications are subject to change without notice.
- The manufacturer disclaims any liability for the incidental or consequential damages.
- The guarantee is in addition to, and does not diminish your statutory or legal rights.
